2020 Electrical and Fundamental Instrumentation Skills Vocational Training Program

As part of the Bayu-Undan Cost-recoverable Local Content Project, ConocoPhillips and its Joint Venturers, in collaboration with the Government of Timor-Leste through the Secretary of State for Vocational Training and Employment (SEFOPE), National Petroleum and Mineral Authority (ANPM), and in partnership with Actemium Oil & Gas Training & National Training Centre for Professional Training and Employment (CNEFP) is providing an Electrical & Fundamental Instrumentation Vocational Training Program with International Quality & Standards.

Built on the successful implementation of the first and second program in Timor-Leste, this training program will run for eight months, during which the students will receive theoretical knowledge & practical skills in Electrical maintenance & fundamental Instrumentation. Training will be conducted entirely in English, using Expatriate trainers with twenty or more (20+) years' experience in the Oil & Gas Industry, and will take place at the CNEFP Training Centre in Tibar under supervision of Actemium Oil & Gas Training. We are looking for twenty four (24) candidates who meet the below criteria:

I. Minimum Qualification requirement:

1. Completed either general High School Science & Mathematics program or Secondary Vocational school in electrical/electronic program or

2. Completed Certificate 3 in electrical/electronic skill vocational training program or

3. University and Polytechnic Graduates are welcome to apply

II. Language ability: Fairly able to speak, understand and write in English

III. Nationality: Timorese

IV. Other expected personal ability requirement needs:

1. Possess "CAN DO" attitude
2. Ability to use computer will be advantageous
3. Highly motivated individual
4. Willing and motivated to learn new skills
5. Experience working in the electrical/electronic field will be advantageous

The application will open from 27th January 2020 to 27th February 2020, from 8 am to 5 pm. The training program is estimated to start by Q1 2020.

Female candidates are encouraged to apply.
