

## **Expression of Interests (EOI)**

### **Passive Seismic Survey Services – Onshore Timor-Leste**

Timor Resources Pty Ltd, Operator of Production Sharing Contracts in partnership with TIMOR GAP, invites suitably qualified and experienced companies to submit an **Expression of Interest (EOI)** to undertake a passive seismic survey over approximately 200 km of onshore Timor-Leste.

The objective is to achieve structural resolution within the 700–1,500 m depth range to support basin evaluation and prospect screening.

### **Technical Scope**

Suppliers must demonstrate capability to deliver depth-sensitive results within the 700–1,500 m interval.

The baseline reference method is Ambient Noise Tomography (ANT) using nodal receivers. However, technically justified alternatives are encouraged.

Submissions must clearly describe depth sensitivity, recording duration requirements, and key technical assumptions.

Acquisition, processing data delivery to client must be completed within 6 months of contract award.

### **Reference Configuration (Benchmarking)**

Suppliers should indicate capability for one or both of the following grid options:

- 200 m × 200 m (~4,900 nodes)
- 400 m × 400 m (~1,225 nodes)

Alternative geometries may be proposed where technically justified.

### **Supplier Requirements**

Interested parties should demonstrate:

- Proven passive seismic project experience
- Capability to resolve targets  $\geq 700$  m depth
- Access to suitable nodal equipment (single or 3-component)
- Robust HSE systems
- Ability to operate in remote environments
