

EXPRESSION OF INTEREST (EOI)

GEOPHYSICAL, GEOTECHNICAL AND ENVIRONMENTAL BASELINE SURVEYS

KUDA TASI AND JAHAL (KTJ) DEVELOPMENT – PSC 19-11

Finder Timor-Leste B.V. ("Finder"), Operator of PSC 19-11 together with joint venture partner TIMOR GAP PSC 11-106, Unipessoal, Limitada, invites EOI from qualified, experienced and capable service providers to undertake Geophysical, Geotechnical and Environmental Baseline Surveys for the KTJ Development offshore Timor-Leste.

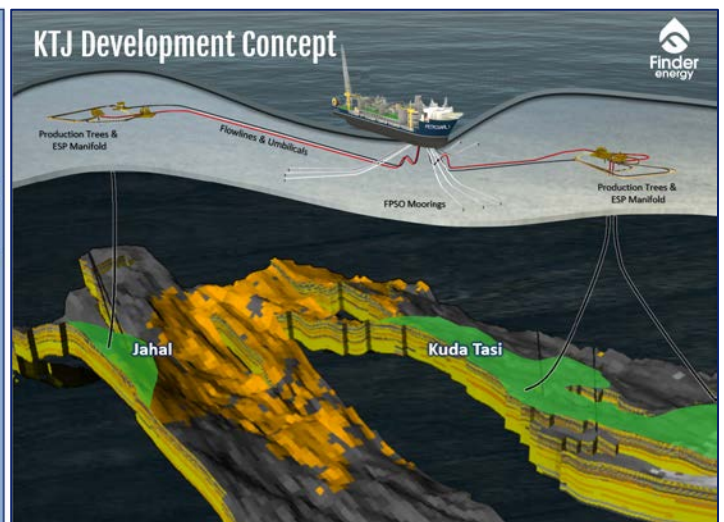

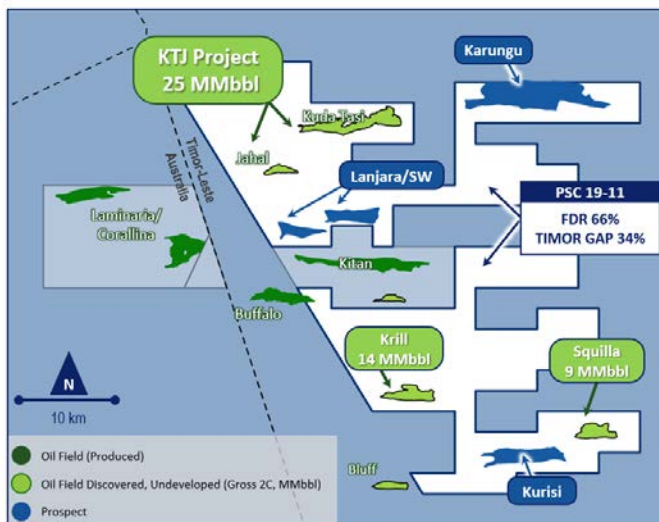

PROJECT OVERVIEW

The KTJ Development comprises the proposed development of the previously discovered and appraised Kuda Tasi and Jahal oil fields, located approximately **150 km** southeast of Suai in Timor-Leste maritime waters in approximately **400 metres water depth**. The proposed development comprises three production wells with subsea tiebacks to a moored Floating Production, Storage and Offtake facility (FPSO).

SCOPE OF SERVICES

ENVIRONMENTAL BASELINE	GEOPHYSICAL	GEOTECHNICAL
• Water sampling and quality • Sediment quality and benthic infauna • Benthic video transects • Marine fauna observations • Noise and vibration data collection	• Multibeam echosounder • Side scan sonar • Sub-bottom profiling • Magnetometer surveys • USBL positioning systems	• Penetration testing • Piston / gravity core and vibrocore sampling • Box core and grab sampling

The scope also includes provision of a suitable survey vessel, qualified personnel, positioning and survey equipment, onboard laboratory facilities and other resources necessary to safely execute the survey program.

SUBMISSION OF EXPRESSION OF INTEREST

Interested service providers should request further information and submit their EOI by email to

EOI@finderenergy.com

CLOSING DATE: 4 SEPTEMBER 2026

Technical enquiries: Luis Pereira, Timor-Leste Country Manager | EOI@finderenergy.com

This EOI does not constitute a commitment, implied or otherwise, that Finder will proceed to further contracting of any of the services described above.
